## Monolite materico

Un grande monolite materico per rappresentare la solidità di SERENISSIMA, la capostipite del Gruppo Romani. Un simbolo dell'anima del marchio, emblema di stabilità e tradizione votate all'eccellenza, e un elemento iconico - svelato per la prima volta all'interno dello spazio espositivo di Cersaie 2023 - che raffigura la forza unita alla bellezza della ceramica come essenza di materia naturale, costituita da Terra, Acqua e Fuoco.

La linearità geometrica di questa forma architettonica identifica il rigore e l'eleganza, la ricercata semplicità e l'innovativa razionalità di un brand costruito negli anni e riconosciuto nel mondo per la qualità dei prodotti e il valore di idee ed azioni concretamente rivolte ogni giorno a migliorare il futuro. Un futuro che passa attraverso anche l'adozione di superfici ceramiche, quelle di SERENISSIMA, che garantiscono standard elevatissimi in termini di sicurezza per l'uomo e l'ambiente, in fase sia produttiva sia di utilizzo; che permettono innumerevoli soluzioni applicative grazie alla completezza di gamma delle varie collezioni; e che soddisfano qualsiasi esigenza stilistica nel nome della costante e riuscita ricerca di equilibrio e valenza estetici.

A large material monolith to represent the solidity of SERENISSIMA, the precursor of Gruppo Romani.

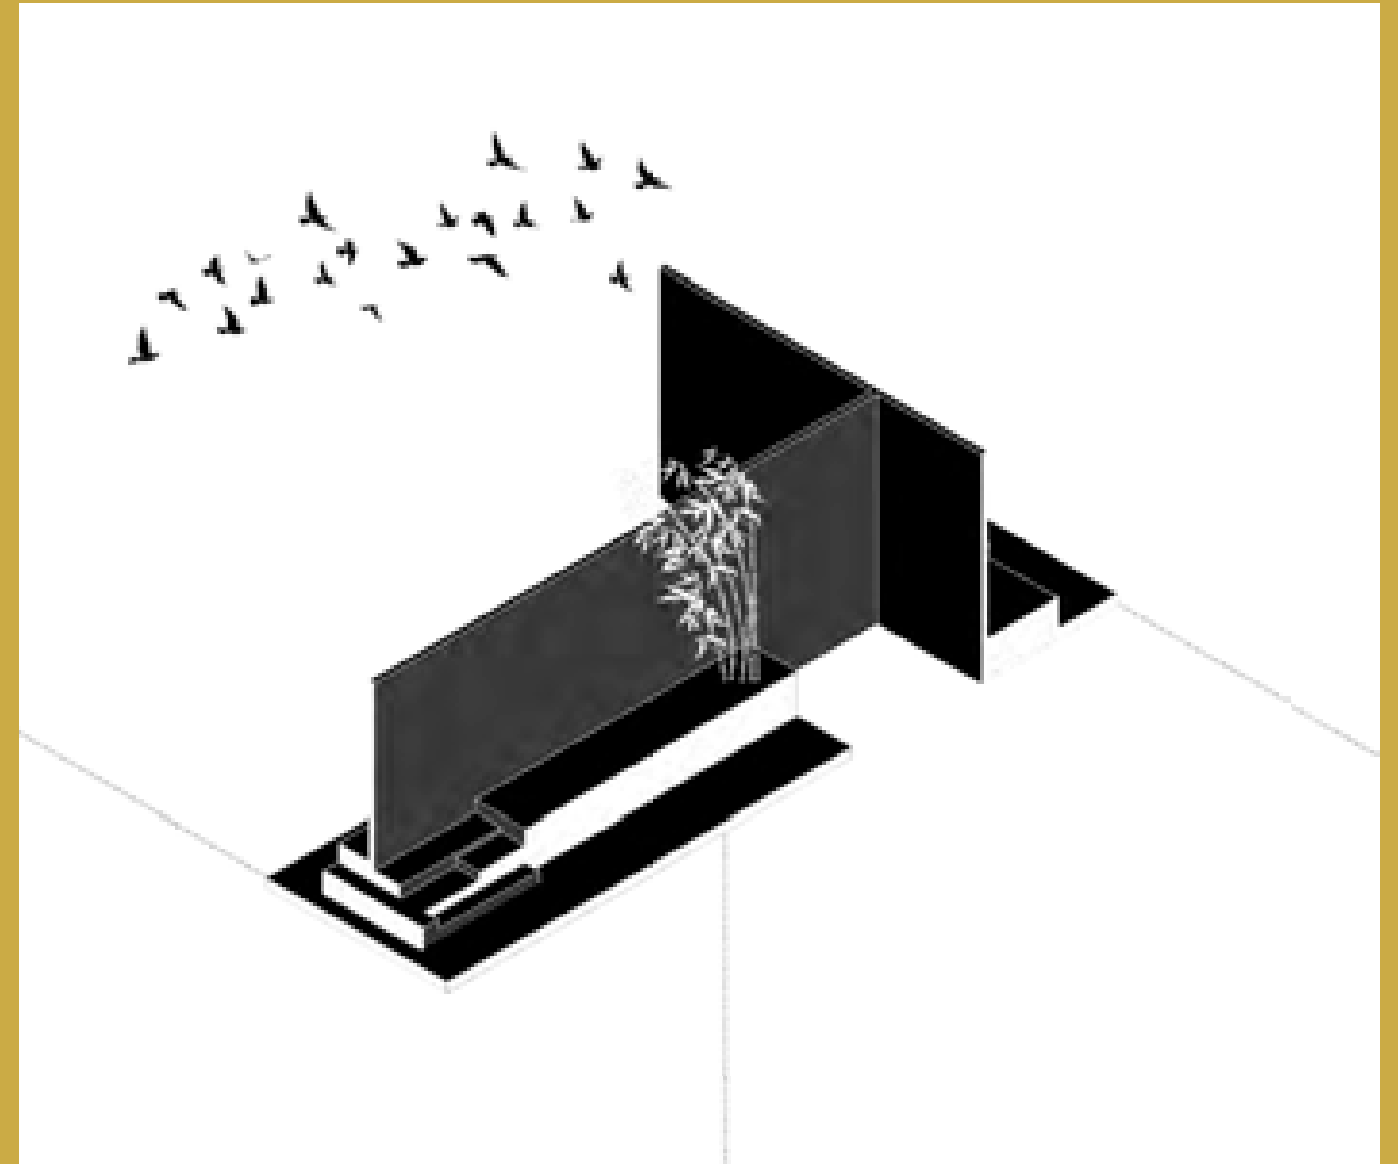

A symbol of the soul of the brand, an emblem of stability and tradition devoted to excellence, and an iconic element - unveiled for the first time within the Cersaie 2023 exhibition space - which depicts strength combined with the beauty of ceramic as the essence of natural matter, made up of Earth, Water and Fire. The geometric linearity of this architectural form depicts the rigor and elegance, the refined simplicity and the innovative rationality of a brand built over the years and recognized all over the world for quality products and the value of ideas and actions whose daily objective is improving the future. A future that also includes the use of ceramic surfaces, those by SERENISSIMA, which guarantee very high standards in terms of safety for humans and the environment, both in the production and use phases; which enable countless application solutions thanks to the complete range of the various collections; and which satisfy any stylistic requirement in the name of a constant and successful quest for aesthetic balance and value.

Serenissima è sinonimo di creatività e di eleganza, fra innovazione tecnologica e autentica tradizione made in Italy.

Le collezioni firmate Serenissima esprimono un ideale di bellezza senza tempo e un'eleganza misurata. Nate da un'innata creatività e da un'assidua attività di ricerca, raccontano l'evoluzione di una lunga tradizione tutta italiana, oggi più che mai attenta all'ambiente.

Serenissima stands for creativity and elegance, both state-of-the-art and true to the traditional Made in Italy style. Serenissima's collections express a timeless beauty ideal and a moderate elegance. Stemming from natural creativity and assiduous research activities, they express the long evolution of a typically Italian tradition, which is increasingly environmentally conscious.

## Un sistema di strumenti complementari

La documentazione di prodotto del Gruppo Romani si evolve, con l'obiettivo di **creare un sistema di strumenti di lavoro funzionali ed efficaci**, ciascuno dei quali risponde a esigenze specifiche.

Nuove sinergie tra strumenti cartacei e digitali rendono immediatamente disponibili tutte le immagini e le informazioni su smartphone, tablet o computer.

### A complementary tools system.

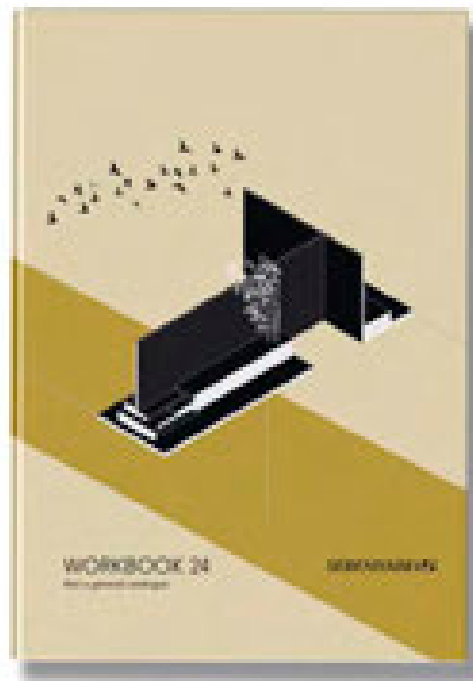

The product information provided by Gruppo Romani has been upgraded, with the aim of **creating a system of practical and effective work tools**, each one designed to meet specific requirements. New synergies between paper and digital tools enable to have an instant access to any image and information on the Smartphone, tablet or computer.

### Un système d'outils complémentaires.

La documentation produit de Gruppo Romani évolue pour **créer un système d'outils de travail fonctionnels et efficaces**, chacun desquels répondant à des exigences spécifiques. De nouvelles synergies entre outils papier et outils numériques garantissent une disponibilité immédiate de toutes les images et informations sur smartphones, tablettes ou ordinateurs.

### Ein System aus komplementären Hilfsmitteln.

Die Produktdokumentation von Gruppo Romani entwickelt sich weiter, mit dem Ziel der **Entwicklung eines Systems aus funktionellen und wirksamen Arbeitshilfsmitteln**, die jeweils spezifische Bedürfnisse erfüllen. Neue Synergien zwischen digitalen und Papierhilfsmitteln sorgen dafür, dass alle Bilder und Informationen sofort auf dem Smartphone, Tablet oder Computer verfügbar werden.

**DIGITAL TOOLS**

Tutte le collezioni raccolte in uno strumento agile e funzionale, con un ambiente iconico e una macro di prodotto per serie. Stampato a inizio anno e sempre disponibile in digitale, in versione aggiornata.

All the collections are stored in an agile and functional tool that displays a specific iconic setting and a product macro image for each series. It will be printed at the beginning of each year and an updated digital version will always be available.

Toutes les collections sont regroupées dans un outil flexible et fonctionnel avec une présentation iconique et une image macro du produit par série. Imprimé en début d'année et toujours disponible en version numérique mise à jour.

Alle Kollektionen zusammen in einem agilen und funktionellen Hilfsmittel, mit einem ikonischen Ambiente und einer Produkt-Makroabbildung pro Serie. Am Jahresanfang ausgedruckt und in aktualisierter Version immer digital verfügbar.

Racconto esauriente della collezione con galleria di immagini ambientate. Stampato per il lancio collezione e sempre disponibile in digitale. QRcode sull'organizer per accedere al catalogo di linea di ogni collezione.

Comprehensive presentation of the collection with a product image gallery. A printed version will be released when a collection is launched and a digital version will always be available. A QR code displayed on the organiser can be used in order to access the product line catalogue of each collection.

Récit exhaustif de la collection par le biais d'une galerie de présentations. Imprimé pour le lancement de la collection et toujours disponible en version numérique. Code QR sur l'organiseur pour accéder au catalogue de ligne de chaque collection.

Ausführliche Schilderung der Kollektion mit einer Bildergalerie von Raumgestaltungen. Ausgedruckt für die Einführung der Kollektion und immer digital verfügbar. QR-Code auf dem Organizer für den Zugriff zum Katalog der Produktlinie jeder Kollektion.

La qualità delle performance dei prodotti SERENISSIMA è attestata da tutte le principali certificazioni internazionali, perché oltre al valore estetico riteniamo che i nostri materiali debbano rispondere ai più elevati standard in termini di funzionalità e soprattutto sicurezza d'uso in tutte le condizioni e destinazioni possibili. Questo per venire incontro ad ogni esigenza applicativa, attenti a soddisfare anche quelle specifiche che vengono richieste da determinati mercati, come indicato qui a fianco relativamente ad alcune nostre collezioni. La volontà e l'obiettivo concreto di SERENISSIMA sono quelli di offrire un gres porcellanato sempre più a misura di installazione e utilizzo in ogni parte del mondo.

#### **Product quality attested by international certifications.**

The superior-quality performance of SERENISSIMA products is attested by all the main international certifications because, in addition to aesthetic value, we believe that our materials must meet the highest of standards in terms of functionality and above all safety of use in every possible condition and destination. This is done to meet every application need, ensuring that specifications requested by certain markets are satisfied, as shown here alongside in relation to some of our collections. The will and concrete objective at SERENISSIMA is to offer porcelain stoneware that is increasingly suitable for installation and use in every part of the world.

#### **Une qualité du produit confirmée également par des certifications internationales.**

La qualité des performances des produits SERENISSIMA est attestée par toutes les principales certifications internationales, car au-delà de la valeur esthétique nous estimons que nos matériaux doivent répondre aux normes les plus élevées en termes de fonctionnalité et surtout de sécurité d'utilisation quelles que soient les conditions et les destinations. Ces caractéristiques nous permettent de satisfaire chaque exigence d'application tout en répondant aux besoins spécifiques des marchés comme indiqué ci-contre pour certaines de nos collections. La volonté et l'objectif concret de SERENISSIMA consistent à offrir un grès cérame de plus en plus facile à installer et à utiliser dans le monde entier.

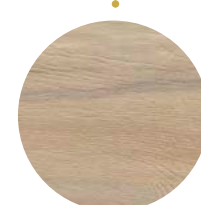

#### **Eine Produktqualität, die auch von internationalen Zertifizierungen bestätigt wird.**

Die hochwertigen Leistungen der SERENISSIMA-Produkte werden von allen wichtigsten internationalen Zertifizierungen bescheinigt, denn wir sind überzeugt, dass unsere Materialien nicht nur von ästhetischem Wert sind, sondern auch den höchsten Standards in puncto Funktionalität und vor allem Gebrauchssicherheit unter allen möglichen Einsatzverhältnissen entsprechen müssen. Damit kommen wir allen Anwendungsbedürfnissen entgegen und erfüllen aufmerksam auch die spezifischen Bedürfnisse bestimmter Märkte, wie nebenan bezüglich einiger unserer Kollektionen angegeben. Der Wille und das konkrete Ziel von SERENISSIMA ist es, ein Feinsteinzeug zu bieten, das immer mehr auf die Installation und Verwendung in jedem Teil der Welt angepasst ist.

### INFORMAZIONI COMPOSIZIONI A DUE PEZZI

INFORMATION REGARDING TWO-PIECE COMPOSITIONS . INFORMATIONS SUR LES COMPOSITIONS EN DEUX PIÈCES  
ANGABEN ZWEISTÜCKKOMBINATIONEN

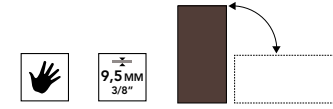

Controllare il numero di composizioni necessarie per completare correttamente il disegno: gli elementi si devono raccordare sia in orizzontale che verticale. Nel caso illustrato, sono necessarie 4 composizioni, non 3.

Check the number of compositions needed in order to complete the design correctly: the elements must be match up both horizontally and vertically. In the case shown, 4 compositions are needed, not 3.

Vérifier le nombre de compositions nécessaires pour compléter correctement le dessin : les éléments doivent coïncider aussi bien horizontalement que verticalement. Dans le cas illustré, les compositions nécessaires sont au nombre de 4 et non de 3.

Die Anzahl der Zusammenstellungen prüfen, die zur korrekten Vervollständigung der Zeichnung nötig sind: Die Elemente müssen sich sowohl waagrecht als auch senkrecht miteinander verbinden. Im dargestellten Beispiel sind nicht 3, sondern 4 Zusammenstellungen nötig.

WHERE? OÙ? WO?

## PER LA CASA

FOR THE HOME  
POUR LA MAISON  
FÜR DAS HAUS

### IN GIARDINO.

In the garden. Dans le jardin. Im Garten.

### NEL PATIO E NELLE TERRAZZE.

On patios and balconies. Sous le porche et sur les terrasses. Im Innenhof und auf Terrassen.

### NELLE SCALE E NEI VIALETTI.

On stairs and walkways. Dans les escaliers et les allées. Auf Treppen und Wegen.

### IN PISCINA.

In swimming pools. À la piscine. Im Schwimmbad.

## NEGLI SPAZI PUBBLICI

IN PUBLIC SPACES  
DANS LES ESPACES PUBLICS  
IN ÖFFENTLICHEN BEREICHEN

### NEI RISTORANTI E HOTEL.

In restaurants and hotels. Dans les restaurants et les hôtels. In Gästebereichen.

### NEGLI STABILIMENTI BALNEARI.

In bathing establishments. Dans les établissements balnéaires. In Badeanstalten.

### NELLE AREE COMMERCIALI.

In shopping malls. Dans les zones commerciales. In Gewerbebereichen.

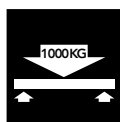

### NEI CAMMINAMENTI E NELL'ARREDO URBANO.

In foot paths and in urban environments. Sur les parcours piétons et dans la décoration urbaine. Auf Gehwegen und in Stadtbereichen.

# 2 perchè?

cm

WHY? POURQUOI? WARUM?

### PERCHÈ RESISTE ALLA FLESSIONE E ALLA FORZA DI ROTTURA

Because of its excellent modulus of rupture and breaking strength  
Parce qu'il résiste à la flexion et à la force de rupture  
Biegefest und bruchfest

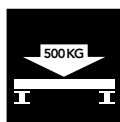

### PERCHÈ È FACILE DA PULIRE

Because it's easy to clean  
Parce qu'il est facile d'entretien  
Reinigungsfreundlich

### PERCHÈ RESISTE AI COLORI E ALLA LUCE

Because the colours are resistant to sunlight  
Parce que ses couleurs sont inaltérables à la lumière  
Farb- und lichtecht

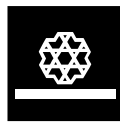

### PERCHÈ RESISTE AI CARICHI DI ROTTURA CON SUPPORTO

Because it resists breaking loads with pedestals for raised floors  
Parce qu'il résiste aux charges de rupture avec support  
Gegen Bruchlasten auf Stelzlagern beständig

### PERCHÈ È REMOVIBILE E ISPEZIONABILE

Because it's removable and inspectable  
Parce qu'il est amovible et visitable  
Entfernbar und inspektionierbar

### PERCHÈ RESISTE AL GELO

Because it's frost resistant  
Parce qu'il résiste au gel  
Frostbeständig

### PERCHÈ È CARRABILE

Because it's drive-over  
Parce qu'il est carrossable  
Befahrbar

### PERCHÈ È IGNIFUGO

Because it's fireproof  
Parce qu'il est ignifuge  
Feuerbeständig

### PERCHÈ RESISTE ALLO SHOCK TERMICO

Because it withstands thermal shock  
Parce qu'il résiste aux chocs thermiques  
Temperaturwechselbeständig

### PERCHÈ È FACILE DA POSARE ED È RETTIFICATO

Because it's easy to lay and has rectified edges  
Parce qu'il est facile à poser et qu'il est rectifié  
Leicht zu verlegen und rektifiziert

### PERCHÈ RESISTE ALLA SCIVOLOSITÀ

Because it's non-slip  
Parce qu'il résiste à la glissance  
Rutschfest

### PERCHÈ NON ASSORBE ACQUA

Because it does not absorb water  
Parce qu'il n'absorbe pas l'eau  
Keine Wasseraufnahme

### PERCHÈ È COORDINABILE INDOOR/OUTDOOR

Because it allows indoor/outdoor coordination.  
Parce qu'il peut être assorti pour l'intérieur et l'extérieur  
Für Innen- und Außenbereiche koordinierbar

### PERCHÈ RESISTE ALLA MUFFA, AL MUSCHIO E AL SALE

Because it's resistant to mould, moss and salt  
Parce qu'il résiste aux moisissures, aux mousses et au sel  
Resistent gegen Schimmel, Moos und Salz

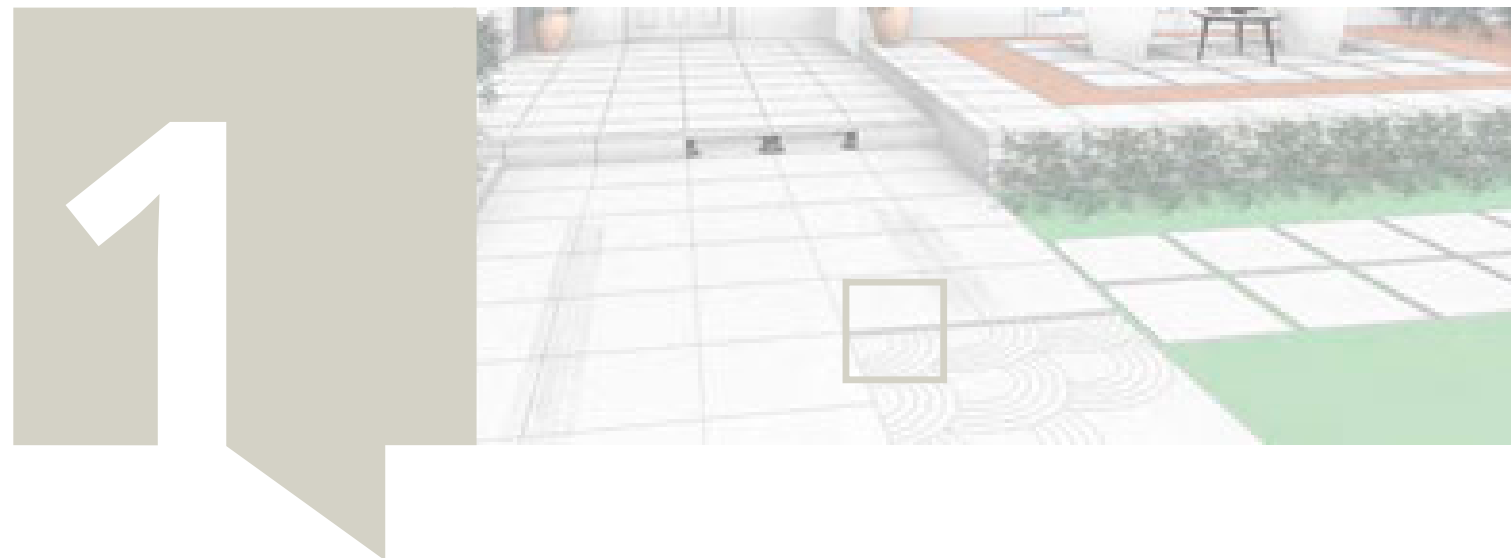

### PERCHÈ RESISTE ALL'ATTACCO CHIMICO

Because it's resistant to chemical attack  
Parce qu'il résiste aux attaques chimiques  
Säure- und Laugenbeständig

## POSA A COLLA SU MASSETTO

LAYING WITH ADHESIVE ON A SCREED.  
POSE COLLÉE SUR CHAPE.  
VERKLEBUNG AUF ESTRICH.

All'interno di aree urbane, la posa su massetto rappresenta la scelta ottimale per realizzare zone di parcheggio, marciapiedi, percorsi pedonali e ciclabili, garantendo al tempo stesso praticità, pulizia, estetica e sicurezza.

In urban areas, laying on a screed is the best choice to create parking areas, pavements, footpaths and cycle paths, guaranteeing a result that is simultaneously practical, clean, beautiful and safe.

En zone urbaine, la pose sur chape est un choix optimal pour réaliser des aires de stationnement, des trottoirs, des parcours piétons et cyclables, garantissant à la fois praticité, propreté, esthétique et sécurité.

Innerhalb von Stadtbereichen ist die Verlegung auf Estrichen eine optimale Lösung für die Gestaltung von Parkbereichen, Gehsteigen, Gehwegen und Fahrradwegen und ist zugleich garantiert praktisch, sauber, ästhetisch und sicher.

## FLOTTANTE SU GHIAIA E SABBIA

DRY INSTALLATION ON GRAVEL AND SAND.  
POSE À SEC SUR GRAVIER ET SABLE.  
TROCKENVERLEGUNG AUF KIES ODER SANDBETT.

Per creare camminamenti pedonali, percorsi di raccordo e aree di sosta, è possibile posare il materiale direttamente su ghiaia o sabbia. I differenti metodi di posa consentono di realizzare ambienti articolati e garantire uniformità visiva anche in presenza di sottofondi diversi.

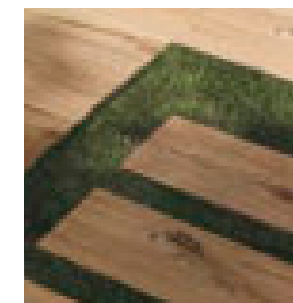

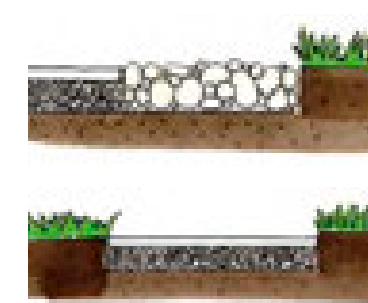

To create walkways, connecting paths and rest areas, the material can be laid directly on gravel or sand. The different installation methods make it possible to create complex and articulated spaces while ensuring visual uniformity even when working on different substrates.

Pour créer des allées piétonnes, des parcours de raccordement et des aires de stationnement, le matériau peut être posé directement sur sable ou gravier. Les différents modes de pose permettent de réaliser des espaces structurés et garantissent l'uniformité visuelle, même en présence de supports différents.

Für die Gestaltung von Gehwegen, Verbindungsstrecken und Aufenthaltsbereichen besteht die Möglichkeit, das Material direkt auf Kies oder Sand zu verlegen. Die unterschiedlichen Verlegungsmethoden erlauben die Einrichtung artikulierter Bereiche und garantieren auch bei verschiedenartigen Untergründen eine gleichmäßige Optik.

## FLOTTANTE SU TERRA

DRY INSTALLATION ON EARTH.  
POSE À SEC SUR GAZON.  
TROCKENVERLEGUNG AUF ERDE.

Con la posa a secco su erba si possono creare percorsi che si inseriscono con eleganza all'interno di parchi pubblici e giardini privati. Questa tecnica di posa è semplice, ecologica e non richiede l'intervento di personale professionista.

Dry installation on grassed surfaces allows the creation of elegant footpaths in public parks and private gardens. This laying technique is simple, environmentally friendly, and can be carried out by unskilled personnel.

La pose à sec sur gazon permet de créer des parcours qui s'intègrent avec élégance dans les parcs publics et les jardins privés. Simple et écologique, cette technique de pose ne requiert pas l'intervention d'un professionnel.

Durch Trockenverlegung auf Gras lassen sich Strecken gestalten, die sich elegant in öffentliche Parkanlagen wie auch Privatgärten fügen. Diese Verlegungstechnik ist einfach, ökologisch und verlangt kein Fachpersonal.

## FLOTTANTE SOPRAELEVATA E DRENANTE

RAISED FLOORING WITH DRAINAGE.  
POSE SURÉLEVÉE ET DRAINANTE.  
DOPPELBODENVERLEGUNG AUF STELZLAGERN  
MIT DRÄNAGE.

La posa sopraelevata è ottimale per ogni necessità di pavimentazione in presenza di cavi o tubi non inseriti nel massetto e per ogni necessità di ispezionabilità degli stessi o del sottofondo, inoltre garantisce il drenaggio delle acque piovane nelle pavimentazioni esterne.

Raised laying is optimal for all requirements of flooring in the presence of wiring or pipework that is not embedded in the screed and for all requirements of inspection of technical systems and substrate. It also allows rainwater drainage in outdoor flooring.

La pose surélevée est un choix optimal pour la réalisation de revêtements de sol en présence de câbles ou de conduites hors chape. Elle laisse la possibilité d'inspecter ces derniers ou le support, et garantit le drainage des eaux de pluie dans les sols extérieurs.

Die Doppelbodenverlegung ist eine optimale Lösung für jede Bodengestaltung, wo Kabel oder Rohrleitungen nicht in den Estrich eingebettet sind und wo Kabel, Rohrleitungen oder Untergründe inspektionierbar bleiben müssen. Außerdem garantieren Doppelböden bei externen Bodenbelägen die Regenwasserdrainage.

### PERCHÈ CONSENTE IL PASSAGGIO DI IMPIANTI ELETTRICI E IDRICI.

Because it allows routing of electrical wiring and pipework.  
Parce qu'il permet le passage des équipements électriques et de plomberie.  
Weil sie die Durchführung von Strom- und Wasseranlagen erlaubt.

### PERCHÈ GARANTISCE IL DRENAGGIO DELLE ACQUE PIOVANE.

Because it allows rainwater drainage.  
Parce qu'il garantit le drainage de l'eau de pluie.  
Weil sie die Ableitung des Regenwassers garantiert.

### PERCHÈ RISOLVE I PROBLEMI DI DISLIVELLO.

Because it solves problems of level differences.  
Parce qu'il résout les problèmes de dénivelé.  
Weil sie bei Höhenunterschieden eine Lösung ist.

### PERCHÈ È FACILE DA POSARE.

Because it's easy to lay.  
Parce qu'il est facile à poser.  
Weil sie leicht zu verlegen ist.

### PERCHÈ È REMOVIBILE.

Because it's removable.  
Parce qu'il est amovible.  
Weil sie entfernbar ist.

### PERCHÈ È ISPEZIONABILE FACILMENTE.

Because it's easily inspectable.  
Parce qu'il est facile à inspecter.  
Weil sie einfach inspektionierbar ist.

### PERCHÈ È RIUTILIZZABILE.

Because it's reusable.  
Parce qu'il est réutilisable.  
Weil sie wiederverwendbar ist.

### AVVERTENZE PER LA POSA SOPRAELEVATA

IMPORTANT NOTES FOR FLOATING INSTALLATION.

Per garantire la massima sicurezza del sistema sopraelevato si consiglia l'uso di un ulteriore supporto posizionato al centro della lastra. Tale soluzione definisce una distribuzione uniforme dei carichi e genera la massima resistenza della superficie calpestabile.

To ensure maximum mechanical performance and safety of the raised floor/paving, we suggest you to add one more pedestal positioned at the centre of the raised tile. This measure ensures uniform load distribution and maximum strength of the walkable surface.

**UN SISTEMA DI SUPERFICI AFFIDABILE, VERSATILE E COMPLETO.**

Il programma di superfici del Gruppo Romani è uno strumento completo per la progettazione degli spazi sia domestici che commerciali. Le caratteristiche tecniche dei differenti spessori del gres porcellanato uniti a differenti metodi di posa, consentono di realizzare ambienti con esigenze complesse.

Tanti vantaggi pratici che si sommano alla ricchezza di gamma di pezzi speciali dedicati a piscine e pavimenti sopraelevati. Ogni esigenza ha una risposta che risolve tecnicamente ed esteticamente le tematiche più complesse per elaborare spazi bellissimi, sicuri ed eterni.

**A RELIABLE, VERSATILE AND COMPLETE SURFACES SYSTEM.**

The Gruppo Romani surfaces programme is a complete design tool for domestic and commercial spaces. The technical features of porcelain stoneware in different thicknesses combined with different installation methods make it possible to create environments able to meet complex requirements.

A host of practical advantages, backed up by a vast range of trims for swimming pools and floating floors. Each need has an answer that provides technical and aesthetic solutions in the most complex applications to create beautiful, safe and indestructible spaces.

**UN SYSTÈME DE SURFACES FIABLE, POLYVALENT ET COMPLET.**

Le programme de surfaces du Gruppo Romani est un outil complet pour la conception des espaces aussi bien résidentiels que tertiaires. Les caractéristiques techniques des différentes épaisseurs du grès cérame, associées à différentes méthodes de pose, permettent la réalisation d'environnements aux exigences complexes.

Ces avantages pratiques s'ajoutent à la richesse de la gamme des pièces spéciales dédiées aux piscines et aux planchers surélevés. Chaque exigence a une réponse qui résout aussi bien sur le plan technique qu'esthétique les problèmes les plus complexes, afin de créer des espaces magnifiques, sûrs et éternels.

**EIN ZUVERLÄSSIGES, VIELSEITIGES UND KOMPLETTES OBERFLÄCHENSYSTEM.**

Das Oberflächenprogramm von Gruppo Romani ist ein komplettes Instrument, mit dem man sowohl Wohn- als auch Geschäftsräume gestalten kann.

Die technischen Eigenschaften der verschiedenen Stärken von Feinsteinzeug ermöglichen zusammen mit den unterschiedlichen Verlegungsmethoden die Gestaltung von Räumen, deren komplexe Anforderungen vollauf erfüllt werden.

Viele praktische Vorteile, die eine breite Palette von Spezialstücken für Schwimmbäder und Doppelböden erweitern. Für jeden Bedarf gibt es eine Lösung, die auch die komplexesten Probleme technisch und optisch löst, um wunderschöne, sichere und ewige Räume zu realisieren.

**SUPERFICI**

Serenissima, nell'intento di fornire prodotti adeguati ad ogni tipo di ambiente, produce una vasta gamma di superfici in grado di rispondere ad ogni condizione e necessità d'impiego. Oltre alle superfici classiche, vengono prodotti pavimenti antiscivolo sia con la tecnica delle applicazioni superficiali di smalti adeguati, che tramite l'utilizzo di idonei stampi strutturati. Inoltre per ottemperare alla richiesta in tema estetico si forniscono prodotti levigati e/o lappati o con superfici che per loro natura creano disegni o forme esteticamente apprezzabili.

**SURFACES**

In the drive to supply products that are suitable for all types of environments, cercom produces a very wide range of surfaces capable of meeting all application conditions and requirements. Apart from classic surfaces, the company produces non-slip surfaces through the application of adequate glazes and by using specially designed structured moulds. Also, to comply with aesthetic requirements the company supplies honed and/or polished products or products whose surfaces naturally produce aesthetically appealing designs or shapes.

**SURFACES**

Serenissima, afin de fournir des produits appropriés à tous les niveaux d'application, propose une large gamme de surfaces capables de satisfaire à toutes les conditions et exigences. En plus des surfaces classiques, nous réalisons des sols antidérapants moyennant l'application superficielle de revêtements prévus à cet effet ou en utilisant des moules structurés. Encore, afin de répondre aux attentes des clients en matière de design, nous proposons aussi des produits lustrés et/ou polis ou des produits dont les surfaces, de par leur nature, créent des dessins ou des formes particulièrement esthétiques.

**OBERFLÄCHEN**

Um passende Produkte für alle Einsatzbereiche zu bieten, produziert Serenissima ein umfangreiches Oberflächensortiment, das allen Bedingungen und Anwendungsbedürfnissen gerecht wird. Zusätzlich zu den klassischen Oberflächen werden rutschfeste Oberflächen produziert, entweder mit der Auftragungstechnik rutschfester Glasuren oder mit strukturierten Stempeln. Außerdem werden zur Erfüllung ästhetischer Ansprüche polierte und/oder geläppte Oberflächen gefertigt, oder solche, die aufgrund ihrer Beschaffenheit Muster oder ästhetisch schätzbare Formen bilden.

**SUPERFICIE NATURALE**

**SUPERFICIE NATURALE/RETTIFICATA R11/ROCK**

**SUPERFICIE NATURALE RETTIFICATA**

**SUPERFICIE RETTIFICATA LUX/LAPPATA/SILK**

**SPESSORI**

Quando si progetta una pavimentazione industriale, il requisito basilare è la capacità di sopportare carichi statici e dinamici che possono raggiungere livelli elevatissimi. La piastrella diventa l'elemento portante e il suo spessore gioca un ruolo fondamentale. I pavimenti Serenissima sono prodotti in: 8,5 mm - 9,5 mm - 2 cm e in 12 formati che vanno da 120x120 cm a 10x40 cm. Consentendo così al progettista grande versatilità d'impiego in ogni tipo di ambiente.

**THICKNESS**

When designing industrial flooring the main requirement is the ability to withstand static and dynamic loads that could reach extremely high levels. The tile becomes the load bearing element and its thickness plays an important role. Serenissima's floor tiles are produced in: 8.5 Mm - 9.5 - 2 Cm and in 12 formats from 120x120 cm (48x48") to 10x40 cm (4"x16"). This means that they offer designers exceptional application versatility in all types of space.

**ÉPAISSEUR**

Dans un projet de carrelage industriel, une caractéristique fondamentale est la capacité à supporter des charges statiques et dynamiques, même à des niveaux très élevés. Le carrelage devient l'élément portant et son épaisseur joue un rôle fondamental. Les sols Serenissima existent en : 8,5 mm - 9,5 mm - 2 cm et en 12 formats allant de 120x120 cm à 10x40 cm. Une gamme considérable qui donne au concepteur une grande souplesse d'utilisation pour tout type d'application.

**STÄRKE**

Die wichtigste Eigenschaft eines industriellen Bodenbelages ist seine Fähigkeit, statischen und dynamischen Lasten standzuhalten, die sehr hohe Niveaus erreichen können. Die Fliese wird das tragende Element und ihre Stärke ist sehr wichtig. Die Fliesen von Serenissima werden in den Stärken 8,5 mm, 9,5 mm, 2 cm und in 12 Formaten von 120x120 cm bis 10x40 cm produziert. Der Architekt kann somit immer die richtige Fliese aussuchen.

**SCIVOLOSITA'**

La resistenza allo scivolamento è una caratteristica che ricade su sicurezza e salute degli utilizzatori, ovviamente nel caso di pavimentazioni. Le superfici scivolose sono potenziali cause di infortuni, anche gravi sia in ambito civile che negli ambienti di lavoro. La grandezza che quantifica la resistenza allo scivolamento è il coefficiente di attrito (statico o dinamico), al quale è proporzionale la forza, parallela alla superficie di contatto, che occorre applicare perchè si abbia moto relativo tra due corpi, e quindi anche la forza che ne definisce le condizioni di equilibrio. Quanto più alto è il coefficiente di attrito, tanto minore è la scivolosità.

Attualmente non è disponibile un metodo di misura standardizzato a livello internazionale, la maggior parte delle nazioni ha metodi propri derivati da leggi, disposizioni antinfortunistiche o altre regolamentazioni di carattere nazionale. Per aver un buon risultato, il valore medio del coefficiente di attrito dinamico deve essere:  $\mu > 0,40$ ,  $R \geq R9$  e  $\mu \geq A$ .

Qui di seguito riportiamo la sintesi degli indicatori che misurano la resistenza alla scivolosità:

**R:** indica l'angolo di inclinazione raggiunto nel test di prova

**V:** rappresenta lo spazio di deflusso determinato dai rilievi della superficie

**A.B.C.:** sono riferimenti di resistenza alla scivolosità relativa ad ambienti umidi e a piedi nudi.

**SLIP RESISTANCE**

Slip resistance is a characteristic that affects the health and safety of users in the case of flooring. Slippery surfaces are potential causes of accidents, also serious in nature, in civil environments and in workplaces. The parameter that measures slip resistance is the coefficient of friction (static or dynamic); the force required for relative movement between two bodies (and therefore also the force defining the equilibrium condition). Said force, being parallel to the contact surface, is proportional to the coefficient of friction. The higher the coefficient of friction, the less slippery the surface.

A standardized international measurement is not currently available and most countries have their own measurement methods based on laws, safety regulations or other national legislation. For good results, the average dynamic friction coefficient must be:  $\mu > 0.40$ ,  $R \geq R9$  and  $\mu \geq A$ .

The following is a short description of the indicators used to measure slip resistance:

**R:** the angle of slope attained during the test

**V:** the displacement space calculated from the surface relief pattern

**A.B.C.:** slip resistance ratings for a barefoot operator on a wet surface.

**GLISSANCE**

La résistance à la glissance des revêtements de sol est une caractéristique très importante pour la sécurité et la santé des utilisateurs. Les surfaces glissantes sont des causes potentielles d'accidents, même graves, dans le domaine civil comme professionnel. La grandeur qui quantifie la résistance à la glissance est le coefficient de frottement (statique ou dynamique), auquel est proportionnelle la force, parallèle à la surface de contact, qui doit être appliquée pour qu'il y ait un mouvement relatif entre deux corps, et donc aussi la force qui en définit les conditions d'équilibre. Plus le coefficient de frottement est élevé, plus la glissance est faible.

À l'heure actuelle, il n'existe pas de méthode de mesure normalisée au niveau international. La plupart des pays ont leurs propres méthodes découlant des lois, des règlements de prévention des accidents ou d'autres réglementations nationales. Pour obtenir un bon résultat, la valeur moyenne du coefficient de frottement dynamique, doit être :  $\mu > 0,40$ ,  $R \geq R9$  et  $\mu \geq A$ .

Voici un résumé des indicateurs qui mesurent la résistance à la glissance :

**R :** indique l'angle d'inclinaison mesurée lors du test

**V :** représente l'espace d'écoulement créé par les reliefs de la surface

**A.B.C. :** sont des indicateurs de résistance à la glissance dans les environnements humides et pieds nus.

**RUTSCHIGKEIT**

Natürlich ist die Rutschfestigkeit eine Eigenschaft, die sich im Bereich der Bodenbeläge auf die Sicherheit und Gesundheit der Anwender auswirkt. Rutschige Oberflächen sind mögliche Ursachen für unter Umständen auch schwere Unfälle sowohl im öffentlichen Bereich als auch im Gewerbebereich. Der Wert, der die Rutschfestigkeit quantifiziert, ist der Reibungskoeffizient (statisch und dynamisch). Zu diesen verhält sich die Kraft proportional, die parallel zur Kontaktfläche wirkt und aufgebracht werden muss, damit eine relative Bewegung zwischen zwei Körpern erfolgt. Somit ist sie auch die Kraft, die die Bedingungen für das Gleichgewicht bestimmt. Je höher der Reibungskoeffizient ist, umso niedriger ist die Rutschigkeit.

Derzeit steht auf internationaler Ebene keine standardisierte Messmethode zur Verfügung. Der Großteil der Länder besitzt eigene Methoden, die auf Gesetzen, Unfallschutzbestimmungen oder anderen Regelungen nationaler Art beruhen. Um ein gutes Ergebnis zu erzielen, muss der durchschnittliche Wert des dynamischen Reibungskoeffizienten betragen:  $\mu > 0,40$ ,  $R \geq R9$  und  $\mu \geq A$ .

Nachfolgend führen wir eine Zusammenfassung der Indikatoren auf, mit denen die Rutschfestigkeit gemessen wird:

**R :** gibt den beim Test erreichten Neigungswinkel an

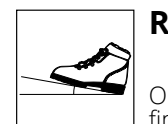

**V:** bezeichnet den durch die Oberflächenreliefs bestimmten Verdrängungsraum

**A.B.C.:** bezieht sich auf die Rutschfestigkeit hinsichtlich Barfuß-Nassbereiche.

Salvo diversa indicazione in tabella, per l'utilizzo dei detergenti in elenco seguire attentamente le indicazioni riportate sulle confezioni. Unless otherwise indicated in the table, when using the detergents listed, follow the instructions on the pack carefully. Sauf mention contraire dan le tableau, pour l'utilisation de détergents repris dans la liste, suivre attentivement les recommandations d'usage figurant sur l'emballage du produit. Solange die Tabelle keine anderweitigen Angaben enthält, befolgen Sie bei der Verwendung von Reinigungsmitteln sorgfältig die Anweisungen auf den Verpackungen.

\* Eseguire sempre test preventivo sulle piastrelle prima dell'uso, in particolare su prodotti lappati o levigati.  
 \* Always do a test in advance on the tiles before use, particularly on Lapper or Ground products.  
 \* Toujours procéder à un essai sur les carreaux avant l'utilisation, surtout pour les articles rodés ou polis.  
 \* Vor der Benutzung sollten Sie immer erst einen prophylaktischen Probeauftrag durchführen, besonders auf geläpften oder polierten Fliesen.
